6. This agreement sets out the arrangements between the National and ACT Parties to establish a constructive and enduring working relationship in the best interests of New Zealand, while strengthening public confidence in the integrity of Parliament and our democracy. This agreement should be read in conjunction with the National and New Zealand First Coalition Agreement.

Nature of Agreement

7. The National and ACT Parties commit to delivering a stable and effective coalition government, alongside the New Zealand First Party.
8. The Parties will do this whilst recognising the importance in a democracy of maintaining independent political identities arising from the voting public's choice.
9. The Parties recognise that the Coalition Government involves different political parties with different manifestos. Although many policies may overlap, policies in this agreement outlined in the "ACT Policy Programme" section will be promoted and acknowledged as ACT's policy and contribution to the Coalition Government. For the avoidance of doubt, where policies overlap with the Policy Programme of the New Zealand First Party in the National and New Zealand First Coalition Agreement, they may also be promoted as ACT's policy and contribution to the Coalition Government.

Policy Programme

10. The ACT Party agrees to progress the National Party priorities this term as set out in the "National Policy Programme".
11. The National Party agrees to progress the ACT Party priorities this term as set out in the ACT Policy Programme.

13. The Government will form a jointly agreed 100 day plan based on the Parties' priorities.

National Policy Programme

14. The National Party priorities agreed to be progressed in this term are set out in its eight point commitment card, Fiscal Plan, Tax Plan, 100 day plan, and 100 point economic plan, with the exemptions as set out below.
15. The following commitments in National's policy plans have been modified to accommodate ACT's concerns:
 - The Government will not progress the development and delivery of National's manifesto commitment to a "Taxpayer's Receipt" for taxpayers.
 - National's manifesto commitment to remove two farming regulations for every new one introduced will be replaced by this agreement's commitment to reduce farming regulation and undertake comprehensive regulatory review across Government.
 - National's Going for Housing Growth policy will now accommodate the ACT/National agreement to make the Medium Density Residential Standards (MDRS) optional for councils, and to consider sharing a portion of GST collected on new residential builds with councils.

- The Parties confirm no ongoing commitment to income tax changes, including threshold adjustments, beyond those to be delivered in 2024.
- The Parties recognise that details of the Fiscal Plan may be subject to amendment in response to significant new information or events.
- Full cost benefit analysis must be presented before any binding agreement is made with respect to the Waikato medical school.
- National's commitment to supercharge electric vehicle infrastructure with a comprehensive, nationwide network of 10,000 public EV chargers by 2030 will specifically take into account ACT's concern that there be robust cost benefit analysis to ensure maximum benefit for government investment.

ACT Policy Programme

18. The Parties will work together and in good faith to reach agreement on specific policy and legislative initiatives where not specifically agreed in this coalition agreement, or the National and New Zealand First Coalition Agreement.

Relationship Between the Parties

19. The Parties will work together in good faith and cooperate with each other in respect of Executive and Parliamentary activities to advance these shared goals, including any public statements on behalf of the Coalition Government. This includes a commitment to policies and programmes set out in the “Policy Programme” section of this agreement and to New Zealand First’s Policy Programme in the National and New Zealand First Coalition Agreement. 22. The Parties agree that any concerns will be raised in confidence as soon as possible and in good faith, and will be responded to expeditiously to allow for the speedy resolution of such matters in private. Concerns will be resolved by applying, so far as they are relevant, the principles and terms of this agreement. The following steps will be followed for raising and resolving concerns:
 - A. In the first instance, concerns can be raised with the Chiefs of Staff of the Parties with a view to reaching a speedy resolution.
 - B. If the concerns have not been expeditiously resolved to the satisfaction of the Party raising the concerns – or, if the concerns require urgent resolution, the Party leader of the Party raising the concerns may refer the matter for direct discussion between the Party leaders.

30. As provided for in the Cabinet Manual, the Parties can “agree to disagree” in relation to matters on which the Parties wish to maintain, in public, different positions. Any “agree to disagree” matter must first have been raised and dealt with as a concern under clause 22. The Parties may “agree to disagree” on the matter if it remains unresolved following the clause 22 process. Subject to this “agree to disagree” process, a Minister’s support and responsibility for the collective government position must always be clear.
31. ‘Agree to disagree’ matters, including any matters beyond those set out in this agreement, will be dealt with on a ‘no surprises’ basis.
